RESEARCH INTERNSHIP OPPORTUNITIES FOR HIGH SCHOOL STUDENTS

THE UNIVERSITY OF CHICAGO is seeking highly motivated high school students for research internships in the Department of Chemistry. The program is designed for students who are interested in pursuing a career in chemistry. Students will work with faculty members on a variety of research projects, including organic, inorganic, and physical chemistry. The program includes a stipend, housing, and travel expenses. Applications are due by March 15, 2000. For more information, visit our website at www.chem.uchicago.edu/research.
